

### A message to our valued patients.

Wound Innovations is committed to providing you with world-leading, evidence-based specialist wound services. We want to continue to offer the services and results you've come to expect of us.

It is not possible for Wound Innovations to meet our running costs each year without increasing our fees. However there may be payment options available to you through a number of government funded programs such as Home Care Packages (HCP), Department of Veteran's Affairs programs (DVA) and various other funded programs. Each program will have specific eligibility criteria, and for some, access may depend on your location. If you're unsure which program you may be eligible for, or just want further information please contact us.

From 1 February 2019 our prices for clinical and telehealth consultations will be as follows:
